Synopsis:

- Discussed implementation of a chat system and check in feature implementation to the application. Looking into adding video appointments and pharmacies for prescription lookup and patient prescription assigning.

Recent Individual Accomplishments:

Jon: Looked into implementations of live chat features.

Alejandro: Looked at documentation to add a checkout feature for patients to check in at hospital/clinic

Michael Chau: Successfully blueprinted concept of chat system

Alen: Tested the application on a MAC computer.

Current Individual Activities:

Jon: Research how we would go about adding pharmaceutical information to our database, and brainstorm preliminary designs of a prescription feature.

Michael: Working on making application more threaded oriented

Alen: Implementing connection to Zoom application for video calling.

Alejandro: Implement the check in feature for the patient

Individual Action Items:

Jon: Assist Michael with adjusting our application to be more thread friendly.

Michael: Creating Runnables and other things necessary for threading the application

Alen: Create a page with Doctor information and buttons to request and start video call.

Alejandro: Set up the GUI to have a check in only if they have an appointment on that day
