

## CS 440 Meeting Minutes

Group: 11 Date: 11/13/2021 Time: 12 pm Duration: 60 minutes

Present, on time: Jon Heikkinen , Alejandro Cabral , Michael Chau , Alen Peter

Present, not on time:

Absent:

### Synopsis:

- Discussed some known bugs and what can be done to correct them. Additional functionalities are looked into, seeing what can be done before the final release.

### Recent Individual Accomplishments:

Jon: Fixed bugs related to logging in as well as with updating databases.

Alejandro: Fixed some gui that did not maintain updates correctly after a patient was selected from the doctor's perspective.

Michael Chau: Cleaned up versions in pom file to attempt to get google api webview to work better

Alen: Found some ideas on how to filter out appointments.

### Current Individual Activities:

Jon: Brainstorming ideas for additional features, as well as fixing bugs for current functionality.

Michael: implementing Google API into calendar screen

Alen: Working on finding the bug with login.

Alejandro: Continue to work on the google map api functionality with Michael.

### Individual Action Items:

Jon: Work on hospital selection functionality, used for filtering available doctors.

Michael: Put minimap top right of when they create an appointment

Alen: Add some implementation of appointment filtering.

Alejandro: Find a way to do a filter by location on the available doctors from the patient's perspective.
