CS 440 Meeting Minutes

Group: 11   Date: 11/6/2021   Time: 12 pm   Duration: 60 minutes

Present, on time: Jon Heikkinen , Alejandro Cabral , Michael Chau , Alen Peter

Present, not on time:

Absent:

Synopsis:

- Decided on what can be implemented after the second coding scenario after receiving suggestions. Going forward we have discussed how more functionalities with the google api will work based on what is currently known from working on it.

Recent Individual Accomplishments:
Jon: Implemented book and cancel appointments for patients, as well as a persistent patient notes section for doctors

Alejandro: Calendar setup implementation for patients to be able to schedule an appointment

Michael Chau: Finished google maps API to correctly work in the project with minimal bugs.

Alen: Modified implementation of back button.

Current Individual Activities:
Jon: Brainstorm ideas for unique features

Michael: Find other functionalities for Google api and find more features that may be added to the overall application

Alen: Find the bug with login.

Alejandro: Work on the google maps api with Michael to try to show additional functionality

Individual Action Items:

Jon: Add doctor's ability to cancel appointments

Michael: Clean up calendar UI and functionality

Alen: Solve the bug with login and add proper functioning implementation of login.

Alejandro: Flush out any ui that is not user friendly and bugs between scene jumping
