CS 440 Meeting Minutes

Group:___11___Date: __10/16/2021____Time: __12 pm___ Duration: __60 minutes__

Present, on time: Jon Heikkinen , Alejandro Cabral , Michael Chau , Alen Peter

Present, not on time:

Absent:

_____

Synopsis:

- Discussed as a team how the different pages should look like as a basis, with a created rough layout for both users. Additionally discussed what kind of database would be used to store appointments.

Recent Individual Accomplishments:
Jon: Worked on coming up with ideas for our appointment database schema. Also worked on refactoring login verification code to work with two separate databases

Alejandro: Created two layout ideas for how the different pages will look for both users

Michael Chau: Found google API that may be usable for the program

Alen: Made some ideas on how to navigate back to the homepage from the doctor page.

Current Individual Activities:
Jon: Write some more tests for the login verification process that now needs to work for two different databases, staff and patients.

Michael: Looking for a way to implement the API into the program

Alen: Implement code to add a back button from the doctor page.

Alejandro: Finish setting up the gui for both users, using the created layout that was finalized with help from the team.

Individual Action Items:

Jon: Begin work on reset password and change email functionality.

Michael: Implement the google api and make sure functionality of it is correct.

Alen: Test and make sure the back buttons from the doctor page are working correctly.

Alejandro: Continue looking into how to implement the calendar for the staff as well as how it would look for the patients
